

Prof. Calvin S. Kalman signing Golden Book at Montreal City Hall

Calvin S. Kalman  
Physics Department, Concordia University  
1455 de Maisonneuve Blvd. West  
Montreal, Quebec, Canada H3G 1M8  
(514) 848-2424 x3284 (office); (514) 488-3391 (home)  
FAX: (514) 848-2828; Email: Calvin.Kalman@Concordia.ca  
homepage- <http://physics.concordia.ca/Facultypages/Kalman.html>

**PERSONAL DATA:** Canadian Citizen, married, two children, one grandchild.

**PRESENT POSITION:** Principal, Science College  
Tenured Full Professor, Department of Physics  
Also Adjunct Professor, Department of Educational and Counselling Psychology McGill University

**EDUCATION:** McGill University; J.W. McConnell Scholar Honours B.Sc. - 5/65,  
University of Rochester; MA-1/67, Ph.D.-1/70

**EXPERIENCE:** Concordia University; 1968-Present  
Chair Physics Department 1983-1989  
Chair International series of conferences Hyperons Charm and Beauty Hadrons (Montreal 1997, Genoa 1998, Valencia 2000, Vancouver 2002, Chicago 2004, Lancaster UK, 2006, North Carolina 2008)  
Indiana University (Bloomington), Visiting Associate Professor 1976-1977.  
Chalk River Laboratories of AECL. Summers 1965, 1966.  
University of Toronto Computer Center Summer 1964

**HONOURS** Member Provost's Circle of Distinction, Concordia University  
Arts and Science Dean's lifetime achievement award for teaching excellence 2009.  
Canadian Association of Physicists Medal for Excellence in Teaching 1999.  
Concordia University Council on Student Life Teaching Award 1998.  
Teaching and Creativity Awards Society for Teaching and Learning in Higher Education.

Listed in Canadian Who's Who , Who's Who in the World and  
Who's Who in Science and Engineering

Referee for The Physical Review, American Journal of Physics: Physics Educational Research Supplement, Science & Education, Canadian Journal of Physics The Physics Teacher, Physics Essays, Nuclear Physics, Physics Letters, AERJ, Saunders, McGraw Hill, Wiley and Freeman.

## Books

"Preons: Models of Leptons, Quarks and Gauge Bosons as Composite Particles" C.S. Kalman and I. DeSouza published by World Scientific Publishing Company (1992)

"Hyperons, Charm and Beauty Hadrons" Proceedings of the 2nd International Conference, Montreal 1996. C.S. Kalman, M. Bozzo, J. Gascon and J. McKenna published as volume 55A of Proc. Suppl. Nuclear Physics (1997)

"Hyperons, Charm and Beauty Hadrons" Proceedings of the 3rd International Conference, Genoa 1998. C.S. Kalman, M. Bozzo, C. Caso, J. McKenna, M Angel Sanchis-Lozano, M.Pallavicini & P.Morettini published as volume 75B,Proc Suppl. Nuclear Physics (1999)

"Hyperons, Charm and Beauty Hadrons" Proceedings of the 4th International Conference, Valencia 2000 C.S. Kalman, M A Sanchis-Lozano, J. Salt,J. McKenna, M. Bozzo, Z. Ligeti, V. Gimenez & E. Cortina published as volume 93 Proc Suppl. Nuclear Physics (2001)

"Hyperons, Charm and Beauty Hadrons" Proceedings of the 5th International Conference, Vancouver 2002 C. S. Kalman, J. McKenna, M. Bozzo, Z. Ligeti, T. Mattison, J. Ng, M. A. Sanchis-Lozano & P. Singer published as volume 115 Proc Suppl. Nuclear Physics (2003).

"Proceedings of the 26<sup>th</sup> Annual Montreal-Rochester-Syracuse-Toronto (MRST) Conference on High Energy Physics, Montreal 2004. Mariana Frank and Calvin S Kalman published as volume 19 #31 International Journal of Modern Physics A (2004)

"Hyperons, Charm and Beauty Hadrons" Proceedings of the 6th International Conference, Chicago 2004 C. S. Kalman, N. Solomey, M. Bozzo, I. Narodetski, J. McKenna,J. Rosner, H. Rubin & P. Singer published as volume 142 Proc Suppl. Nuclear Physics (2005).

"Successful Science And Engineering Teaching In Colleges And Universities" Calvin S. Kalman, published by Jossey-Bass/Wiley Inc. (2007).

"Hyperons, Charm and Beauty Hadrons" Proceedings of the 7th International Conference, Lancaster (England)" G. Borissov, M. Bozzo, R.W.J. Jones, C.S. Kalman, P. Ratoff, M. Smizanska and N. Solomey published as volume 167, Proc Suppl. Nuclear Physics (2007).

"Successful Science and Engineering Teaching: Theoretical and Learning Perspectives" Calvin S. Kalman, published by Springer (2008).

"Hyperons, Charm and Beauty Hadrons" Proceedings of the 8th International Conference, South Carolina " M. Bozzo, C.S. Kalman, S. Mishra, P. Petti, M. Purohit, C. Rosenfeld, M A Sanchis-Lozano, N. Solomey and J. R. Wilson published as volume 187, Proc Suppl. Nuclear Physics (2009).

"How Did We All Begin Where Is God In All That?" Calvin S. Kalman, published by Nova Science Publishers Inc (2010).

## **Science and Engineering Education Sources**

Calvin S. Kalman, Series Editor

Using and Developing Measurement Instruments in Science Education (2010)

by Xiufeng Liu

College Teaching and the Development of Reasoning (2009)

edited by Robert G. Fuller, Thomas C. Campbell,

Dewey I. Dykstra, Jr., and Scott M. Stevens

**I.1 Published papers related to teaching (See Section II.1 for 75 published papers related to Elementary Particle Physics)**

45. Enhancing Students' Understanding Of Concepts By Getting Students to Approach Text in The Manner of a Hermeneutical Circle  
Calvin S. Kalman (Published online 5 September 2010).  
DOI: 10.1007/s11191-010-9298-z  
Science & Education: 20(2), 159–172, 2011.
44. On the Concept of Force: A Comment on Lopes Coelho.  
Science & Education.  
DOI: 10.1007/s11191-010-9284-5  
Calvin S. Kalman (Published online 11 August 2010)  
Science & Education: 20(1), 67-69, 2011.
43. Toolbox of activities to support students in a physics gateway course.  
Physical Review Special Topics - Physics Education Research. 6(2),020111,1-15, 2010  
DOI: 10.1103/PhysRevSTPER.6.020111  
Calvin S. Kalman, and Shelley Rohar
42. Reading The Book Of Nature: The Hermeneutical Circle In Science  
Book Chapter in Consistent incorporation of Professional Terminologies into the World's Languages: The Linguistic Engine of a Global Culture  
(Michel Gueldry Ed. )  
Calvin S. Kalman  
The Mellen Press, 2010
41. Comparison of the Effectiveness of Collaborative Groups and Peer Instruction in a Large Introductory Physics Course for Science Majors  
Calvin S. Kalman, Marina Milner-Bolotin, and Tetyana Antimirova  
Canadian Journal of Physics 88, (5), 325-332, 2010.  
doi: 10.1139/P10-024
40. Enabling Students to Develop a Scientific Mindset  
Calvin S. Kalman  
Science & Education: 19(2), 147 -163, 2010  
DOI10.1007/s11191-009-9186-6.
39. Why Should I use Collaborative Groups in my Course?  
(Invited article.)  
Calvin S. Kalman  
Physics in Canada, 65, 137-138, 2009.

38. The Need to Emphasize Epistemology in Teaching and Research  
Calvin S. Kalman  
Science & Education. 18, 325- 348, 2009.
37. A Role for Experiment in Using the Law of Inertia to Explain the Nature of Science: A Comment on Lopes Celho  
Calvin S. Kalman  
Science & Education 18, 25-31, 2009.
36. Students Perceptions of Reflective Writing as a Tool for Exploring an Introductory Textbook.  
Calvin S. Kalman, Mark Aulls, Shelley Rohar and John Godley  
Journal of College Science Teaching March/April 2008 37(3),74-81
35. Book Review, The Physics of Hockey, by Alain Haché.  
Calvin S. Kalman  
The Physics Teacher 45, 586 January 2007
34. Enhancing conceptual change using argumentative essays  
Calvin S. Kalman, Shelley Rohar and David Wells  
Am. J. Phys 72, 715-717, 2004.
33. Can an analysis of the contrast between pre-Galilean and Newtonian theoretical frameworks help students develop a scientific mindset ?  
Calvin S. Kalman, Mark Aulls  
Science & Education 12, 761-772, 2003.
32. Course Design for an Introductory Science Course  
Calvin S. Kalman  
Academic Exchange Quarterly Winter issue 2003, 194-198 plus table  
<http://rapidintellect.com/AEQweb/2490table.htm>
31. Generating Effective In-Class Discussions  
Calvin S. Kalman  
The Successful Professor volume 1, issue 5 (October 2002), 7-9  
<http://www.thesuccessfulprofessor.com>
30. Developing Critical Thinking in Undergraduate Courses: A Philosophical Approach  
Calvin S. Kalman  
Science & Education 11, 83-94, 2002.
29. Invited Book Review of "Time for Science Education: How Teaching the History and Philosophy of Pendulum Motion Can Contribute to Science Literacy" by Michael R. Mathews. Physics in Canada 57, 301-302 2001. (This is a mini essay.)

28. Kalman, Calvin, Teaching Students to Solve Quantitative Problems in Science courses by Writing Their Way into the Solution, The Successful Professor, Sample Issue, May, 2001, 3-4.  
<http://www.thesuccessfulprofessor.com>
27. "Teaching Science To Non-Science Students Using A Student-Centred Classroom"  
Calvin S. Kalman chapter in book : "Inspiring Students: Case Studies in Motivating the Learner"  
edited by Kemal Ahmet and Stephen Fallows  
SEDA—Staff and Educational Development Series (UK-Great Britain)  
Kogan Page Limited (1999).
26. "Promoting Conceptual Change Using Collaborative Groups In Quantitative Gateway Courses"  
Calvin S. Kalman, Stanley Morris, Christopher Cottin and Robert Gordon  
Physics Educational Research Supplement. Am. J. Phys.67, S45-S51 1999.
25. "Developing Critical Thinking Using Writing to Learn Techniques"  
J . Kalman and C .S. Kalman  
Teaching Learning Connection:  
Newsletter of the International Alliance of Teaching Scholars  
<http://WWW.IATS.COM/Newsletter.html> 1,#1,June 1998.
- 24 "Developing Critical Thinking Using Cooperative Learning Techniques "  
Calvin Kalman  
Physics in Canada January/ February 1998, 15 -17
- 23 "Writing to Learn"  
J . Kalman and C .S. Kalman  
in K. Gillespie, ed., Essays on Teaching Excellence. The Professional and Organizational Development in Higher Education. 9 #4,1997
22. Conceptual Writing Exercises, Essay Questions,Group Exercises.  
in "The Hidden Curriculum: Faculty-Made Tests in Science"  
Edited by Sheila Tobias and Jacqueline Raphael.  
( Plenum Press copyright California State University Press 1997)
21. "Writing to Learn"  
J . Kalman and C .S. Kalman  
Am. J. Phys **64**,954-956(1996)
20. "STLHE 1995 Perceiving and Conceiving"  
J . Kalman and C. S. Kalman  
STLHE Newsletter #17(Dec 1995) 3-4  
Reprinted in "Teaching and Learning at Carleton University" A special supplement to "This week at Carleton" 5(3) 3.

19. "Writing to Learn"  
C. S. Kalman  
STLHE Newsletter #17(Dec 1995) 8-9
  
18. "Writing to Learn Mathematics and Science"  
C. S. Kalman  
The Point: The newsletter of SCENT-UPEI's Senate Committee on the Enhancement of Teaching 4#2,3 May(1995)  
Received Bright Ideas Award at the Annual Conference of the Society for Teaching and Learning in Higher Education, University of Western Ontario, June 1995
  
17. "Passing the Word to the Student; Transforming Each Lecture into a Part of a Mini-research Paper"  
Received Bright Ideas Award at the Annual Conference of the Society for Teaching and Learning in Higher Education, York University, June 1992  
C.S. Kalman  
CORE
  
16. "Developing Critical Listening in the Classroom"  
One of four finalists for the Teaching and Learning Creativity Award offered at the Annual Conference on Teaching and Learning in Higher Education, Dalhousie University, June 1991.  
C.S. Kalman  
Focus, Issue #3, 1, October (1991)
  
15. "Continental Class Room Remembered"  
C.S. Kalman  
Am. J. Phys, 55, 583,1987 (refereed letter to the editor)
  
14. "A Computer Managed Undergraduate Physics Laboratory"  
C. S. Kalman  
Am. J. Phys. 55, 46, 1987.
  
13. "Cultural Influences on Physicists"  
C.S. Kalman  
Physics in Canada 32, 88, 1976.
  
12. "Constellation Course: The Interaction Between the Sciences and the Arts"  
L.R. Hallett and C.S. Kalman  
Am. J. Phys. 43, 606, 1975.

11. "Introductory CAI Dialogue in Differential Calculus for Freshman Physics"  
C.S. Kalman, D. Kaufman, R. Smith  
Am. J. Phys. 42, 392, 1974.
10. "Loyola CAI Language"  
C.S. Kalman and D. Kaufman  
ACIT Newsletter 3, 25, 1974.
9. "Origin of the Undergraduate Physics Conference"  
C.S. Kalman  
Physics in Canada 29, 111, 1973.
8. "CAI at Loyola"  
C.S. Kalman  
ACIT Newsletter 2, 14, 1972.
7. Invited Book Review of "Portrait of Nature"  
by Allan Cottrell  
Am. J. Phys. 44 195, 1976.
6. Invited Book Review of "Physics" by Michaels, Albano, Smith,  
5-1.  
5 Abstracts in J. Coll. Sci. Teaching.

## **I.2 Talks (Relating to Teaching)**

75. “How do we teach? How do students learn?” Presentation  
International History, Philosophy and Science Teaching Conference  
Aristotle University (Thessaloniki) July 1-5, 2011
74. “Teaching in Vietnam” talk presented at  
Canadian association of Physicists annual Congress . June 2010  
Calvin Kalman
73. “Enhancing Your Course with Activities Arising from Physics Educational  
Research. Nine hour workshop. Sponsor: Committee on Research in Physics  
Education Co-sponsor: Committee on Physics in Undergraduate Education.  
American Association of Physics Teachers. July 2010.
72. “Personal epistemologies as barriers and facilitators to learning by Science and  
Engineering undergraduate students.” Roundtable (1 ½ hour given twice). Physics  
Education Research Conference. July 2010.
71. “A Case Study on Reflective Writing”. Poster presented at Physics Education  
Research Conference 2010 Portland, OR.  
Xiang Huang, Calvin Kalman
70. “Helping Students Use Reflective Writing More Effectively”. Contributed talk  
presented at American Association of Physics Teachers 2010 Portland, OR.  
Xiang Huang, Calvin Kalman
71. “Reflective Writing as a Tool for Exploring Physics Courses”. Poster presented at  
American Association of Physics Teachers 2010 Portland, OR.  
Xiang Huang, Calvin Kalman
68. “Enhancing Students' Understanding Of Concepts By Getting Students to  
Approach Text in The Manner of a Hermeneutical Circle”  
Invited talk. Canadian association of Physicists annual Congress . June 2010  
Calvin Kalman
67. Reflective Writing as a Tool for Exploring an Introductory Textbook”  
Paper presented at the Annual congress Canadian association of Physicists.  
University of Toronto. June 2010  
Xiang Huang, Calvin Kalman
66. “Helping students use reflective writing more effectively” Poster Session Annual  
congress Canadian association of Physicists. University of Toronto. June 2010  
Xiang Huang, Calvin Kalman
65. “Promoting Students’ Understanding of Science” Presentation

International History, Philosophy and Science Teaching Conference  
Notre Dame University June 24-28, 2009

64. "Comparison of Two Active Learning Teaching Methods: Conceptual Conflict Collaborative Group and Peer Instruction" Poster Session Annual congress Canadian association of Physicists. June 2009

Marina Milner-Bolotin, Tetyana Antimirova, Calvin Kalman

63. "Comparison of Conceptual Conflict Collaborative Group Intervention with Modified Peer Instruction." Paper presented at the American Association of Physics Teachers, Chicago, IL, February 11-16, 2009.

Kalman, C., Milner-Bolotin, M., & Antimirova, T.

62. "The Classroom of the Future: Human Interaction in an Age of Technology" 8- hour workshop American Association of Physics Teachers Summer Conference, University of Alberta, July 19-23, 2008. Sponsored by the Committee on Research in Physics Education and the Committee on Physics in Undergraduate Education

61. "Reflective Writing in the laboratory." Presentation (Invited): American Association of Physics Teachers Summer Conference, University of Alberta, July 19-23, 2008.

60. "The Need to Emphasize Epistemology in Teaching and Research." Presentation (Invited): International History, Philosophy and Science Teaching Conference, Calgary University June 24-28, 2007.

59. "Beyond Conceptual Change: Changing Students Epistemologies." Presentation (Invited): Annual Congress Canadian Association of Physicists, University of Saskatchewan June 17, 2007.

58 "An Interactive Introductory Science Course" (refereed presentation)  
Society for Teaching and Learning in Higher Education  
University of Alberta, June 13, 2007.

57 "The Classroom of the Future: Human Interaction in an Age of Technology"  
One of only three 7 hour pre conference workshops (accepted after consideration by a panel.) Society for Teaching and Learning in Higher Education  
University of Alberta, June 13-16, 2007.

56. "The Need to Emphasize Epistemology in Teaching and Research."  
(Invited Colloquium) Hebrew University (Jerusalem). May 30, 2007

55. "The Need to Emphasize Epistemology in Teaching and Research." 30th McGraw-Hill Ryerson, National Teaching, Learning & Technology Conference Montreal, May 14, 15, 2007.

54. "Some Thoughts on Current Physics Educational Research." Presentation

(Invited): Annual Congress Canadian Association of Physicists,  
University of British Columbia June 5, 2005.

53. "Designing Activities for the introductory course based upon Physics Educational Research." Workshop (Invited) Dawson College May 28, 2005
52. Teaching seminar on Integrating Writing into Engineering and Computer Science Courses (Invited). Concordia University Faculty of Engineering. March 16, 2005.
51. Workshop (Invited): "Some Thoughts on Current Physics Educational Research" Canadian Association of Physicists Physics Teachers' Day Monday, March 22, 2004 at the 2004 March American Physical Society meeting.
50. An Interactive Introductory course  
Professional and Organizational Development (POD) Network Conference  
November 4 - 7, 2004
49. "Helping students get the most out of introductory gateway science courses"  
Roundtable presentation Physics Education Research Conference  
Madison Wisconsin August 2003.
48. "Helping students get the most out of the introductory course."  
Talk at American Association Of Physics Teachers Conference  
Madison Wisconsin August 2003.
47. "Using Writing to Enhance Understanding"  
Invited talk; Sir Wilfred Laurier University  
part of workshop on Critical Thinking and Writing across the Disciplines  
May, 16th 2003
46. "Using Writing to promote Human Interaction in an Age of Technology."  
Keynote address, Physics & Engineering Physics Division, Annual Meeting,  
American Society for Electrical Engineers. Montreal, June 19, 2002.
- 45 "The Classroom of the Future: Human Interaction in an Age of Technology"  
3 Hr workshop for Concordia University's Center for Teaching and Learning  
Services. Dec 28, 2001.  
(Note that this is a very different presentation from the much shorter  
keynote address at Yale University of the same title.)
- 44 "What is the Point of Having Students Come to Class"  
75-minute refereed talk Society for Teaching and Learning in Higher Education  
Memorial University of Newfoundland, June 14-16, 2001.
43. "The Classroom of the Future: Human Interaction in an Age of Technology"

- Invited keynote address Annual Spring Teaching Forum  
"Teaching the Future: Innovation in the College Classroom"  
Yale University, New Haven CT. March 23,2001
42. "Helping Students Take a Greater Responsibility for Their Learning"  
90 minute workshop for faculty at the Physics Department and local High School  
Physics teachers University of Western Ontario March 21,2001
- 41 "Helping Students Take A Greater Responsibility for Their Learning  
70-minute invited talk Society for Teaching and Learning in Higher Education  
Brock University June 15-17 2000.
- 40 "Helping Students reach their full potential."  
45-minute invited talk (Plenary session) Canadian Association of Physicists  
Congress  
University of New Brunswick. June 6-9 1999.
39. "Comparison of the Student-Centered and Teacher-Centered Classroom  
American Association of Physics Teachers meeting  
New Orleans, Louisiana Jan. 2-8,1998.
- 38 "Developing Critical thinking in a Student-Centered Classroom."  
Workshop W15: American Association of Physics Teachers (Sponsored by  
Committee on Research in Physics Education) meeting at New Orleans,  
Louisiana Jan. 2-8,1998.
- 37 "Developing Critical Thinking in Undergraduate Courses: A Philosophical  
Approach". Invited paper American Association of Physics Teachers Summer  
Meeting The University of Denver August 1997.
36. "Developing Critical thinking using a student-centered classroom."  
90 minute refereed workshop presented to the seventeenth annual  
meeting of the Society for Teaching and Learning in Higher  
Education, The University of Regina June 1997.
35. "A Comparison of Teacher-Centered Learning with Student-Centered Learning"  
Poster session in Concordia University Teaching Fair  
Concordia University Nov 13,1996
34. "Developing Critical writing and critical thinking using a student-centered  
classroom." 21/2 hr. Invited workshops to the entire 100 member faculty of  
Gainesville College Gainesville, Georgia, September 1996.
33. "Learning Styles"

- 20 minute presentation as part of Teaching Assistant Orientation  
Concordia University Sept. 4, 1996
32. "Helping Students See the Big Picture: Interdisciplinary Collaboration and Science Teaching" Invited paper American Association of Physics Teachers  
Summer Meeting The University of Maryland August 1996.
  31. " Student-Centered Learning"  
45-minute invited paper at the Canadian Association of Physicists Congress  
The University of Ottawa June 1996.
  30. "A Comparison of Teacher-Centered Learning with Student-Centered Learning II"  
1-hour refereed workshop presented to the sixteenth annual  
meeting of the Society for Teaching and Learning in Higher  
Education, The University of Ottawa June 1996.
  29. "Cooperative Education and Student-Centred Learning"  
4-hour workshop presented to Concordia University sponsored by Concordia's  
Learning Development Office  
May 15,1996.
  28. "A Comparison of Teacher-Centered Learning with Student-Centered Learning"  
1-hour workshop presented to the Concordia University  
Physics Department, Nov. 10, 1995
  27. Presentation on Problem Solving; one of the sessions in  
Cognitive Seminar 1995-1996 of Centre for Study of Classroom Processes  
(Concordia U) Oct. 6,1995.
  26. "A Comparison of Teacher-Centered Learning with Student-Centered Learning"  
1-hour refereed workshop presented to the Fifteenth annual  
meeting of the Society for Teaching and Learning in Higher  
Education, The University of Western Ontario June 1995.
  25. "Learning Styles"  
20 minute presentation as part of Teaching Assistant Orientation  
Concordia University Sept. 9, 1994
  24. "Cooperative Learning and Student Centered Instruction"  
3-hour refereed workshop presented to the Fourteenth annual  
meeting of the Society for Teaching and Learning in Higher  
Education, Vancouver June 1994.
  23. "Student-Centered Education in Physics" "1 1/2-hr. "Brown bag" workshop at  
Centre for study of classroom processes (Concordia U) March 1994

22. "Introducing Critical Thinking in Physics Courses"  
Workshop W01: American Association of Physics Teachers (Cosponsored by Committees on Physics in Undergraduate Education and Physics in Two-Year Colleges) meeting at San Diego California Jan. 3-8,1994.
21. "Promoting Discussion"  
Two hour workshop for TAs, Graduate Students and New Faculty  
Concordia University Oct. 1,1993
20. "Cooperative Learning"  
Two hour workshop as part of Teaching Assistant Orientation  
Concordia University Sept 10,1993
19. "Learning Styles"  
30 minute presentation as part of Teaching Assistant Orientation  
Concordia University Sept 10,1993
18. "Developing"Critical Thinking in Science Courses"  
90 minute refereed workshop presented to the Thirteenth annual meeting of the Society for Teaching and Learning in Higher Education, University of Manitoba June 1993.
17. "2-hr. "Brown bag" workshop on cooperative learning in Science courses" Centre for study of classroom processes (Concordia U) April 1993
16. "Enhancing Thinking Skills in Science Courses"  
2-1/2 Hr Workshop sponsored by Learning Development Office,  
Concordia University, November 1992.
15. "Introducing Critical Thinking in Physics Courses"  
2 Hr. Workshop. Concordia University, December 1991.
14. "Developing Critical Thinking in Introductory Science Courses"  
Refereed 85 minute presentation to the Eleventh Annual Meeting of the Society for Teaching and Learning in Higher Education Dalhousie University June 1991.
13. "Experimenting in Teaching Physics; Classroom Research"  
Calvin Kalman and Ronald Smith  
Concordia University December 1990
12. "Leibnitz vs. Newton: Does the Universe Require Repairs"  
Liberal Arts College March 1980.

11. "Cultural Influences on Physicists" invited talk,  
Joint Meeting American Physics Society, Mexican Physics  
Society Canadian Association of Physicists"  
Quebec City, June 1976.
  
10. "Do The Arts and Sciences Have Anything To Say to Each Other"  
Loyola Faculty of Arts and Science Series; Conversation with  
Arts and Science, February 1976.
  
9. "A Study of Computer-Assisted Instructural Strategies and  
Learner Characteristics"  
Refereed Paper presented at 1975 AERA Meeting
  
8. "Constellation Course-Interaction Between Sciences and the  
Arts" American Association of Physics Teachers"  
(Bull APS 20, 78 (1975))
  
7. "What is Physics All About"  
Series of 3 lectures to Course Thinking 100  
(Prof. B. Cavanaugh, Philosophy Dept.)  
Spring 1974
  
6. "Logic of Quantum Mechanics"  
Prof. Kawczak's Logic Class April 1974
  
- 4,5. "Computer Aided Instruction"  
Computing Science Students Association Feb. 1974 and to  
French 538 (Mme. Van Toch) Fall 1973
  
3. "Evaluation of Some Computer Dialogs"  
American Association of Physics Teachers  
New York January 1973.
  
2. "Are we Consuming our way to Doomsday".  
Thursday Open Forum  
Loyola College  
February 1972
  
1. "How to Use the Computer in Your classroom". General  
presentation at the invitation of the Academic Vice  
President (Loyola) covered by Channel 12 Television and the  
Gazette, October 1972.

## II.1 Published Research Papers in Elementary Particle Physics

75. "Why Quarks cannot be Fundamental Particles"  
C. S. Kalman  
Nuclear Physics B (Proc. Suppl.). **142**, 235-237 (2005).
74. "Why Quarks cannot be Fundamental Particles"  
C. S. Kalman  
International Journal of Modern Physics A **19**, 5433 (2004).
73. "The bound state corrections to the semileptonic decays of heavy baryons"  
I. D'Souza, C. S. Kalman, P. Yu Kulikov and I. M. Narodetski,  
Nuclear Physics B (Proc. Suppl.). **115**,15-19 (2003).
72. "The Kalman-Tran-D'Souza model and SL decays of heavy baryons"  
I. D'Souza, C. S. Kalman, P. Yu Kulikov and I. M. Narodetski,  
Nuclear Physics B (Proc. Suppl.). **93**,3-8 (2001).
71. "Baryon Spectroscopy in the Charm and Beauty Sectors using a Renormalization  
Group Improved Quark Phenomenological Model"  
C. S. Kalman and I. D'Souza  
Nuclear Physics B (Proc. Suppl.). **75B**,3-9 (1999).
70. "Low Energy  $Z_R^0$  Based on an SO(10) SUSY-GUT"  
C. S. Kalman  
pp. 263-270 in "Toward the Theory of Everything: MRST'98"  
edited by J. M. Cline, M. E. Knutt, G. D. Mahlon, G. D. Moore  
(American Institute of Physics, conference proceedings 452, Woodbury, NY 1998)
69. "Review of Spectroscopy and Strong Decays of Heavy Flavored Baryons"  
C. S. Kalman  
Nuclear Physics B (Proc. Suppl.). **55A**, 27-32 (1997).
68. "Decay and Spectra of Baryons Especially Beauty Baryons"  
C. S. Kalman  
Nuclear Physics B (Proc. Suppl.),**50**, 135-139(1996)
67. "Chargino and Neutralino Pair Production at the pp collider in the Left-Right  
Supersymmetric Model"  
M. Frank, C. S. Kalman and H.N. Saif  
Journal of Physics G: Nuclear and Particle Physics **21**, 601-614 (1995)
66. "Production of Charginos and Neutralinos for the Reaction  $e^+e^- \rightarrow Z' \rightarrow \tilde{\chi}^+ \tilde{\chi}^+, \tilde{\chi}^0 \tilde{\chi}^0$ ,  
in  $SU(2)_L \times SU(2)_R \times U(1)_{B-L}$ ."  
S. W. Frederick and C. S. Kalman  
*Il Nuovo Cimento*. **A 108**, 189-204 (1995)

65. "Experimental consequences of left-right supersymmetry"  
 . C. S. Kalman  
 pp 24-29 in "MRST '94: "What Next? Exploring the Future of High -Energy Physics" edited by J. R. Cudell, K. R. Dienes, and B. Margolis  
 (World Scientific, Singapore 1994)
64. "Slepton and squark production at ep colliders in a left-right supersymmetric model"  
 C. S. Kalman  
*Il Nuovo Cimento. A* **107**,2805-2812 (1994)
63. "Left- Right Supersymmetry"  
 C. S. Kalman  
 pp.391-397 in "International Workshop on Supersymmetry and Unification of Fundamental Interactions; SUSY Ninety Three" edited by Pran Nath (World Scientific, Singapore 1993)
62. "Masses of Charginos and Neutralinos in a Left-Right Supersymmetric Model"  
 M. Frank, C. S. Kalman and H.N. Saif  
*Zeits für Physik C* **59**,655-668(1993)
61. "Chargino-Neutralino Production in pp collisions for the Left-right Supersymmetric Model"  
 C. S. Kalman and H.N. Saif  
*Zeits fur Physik C* **56**, 447-455 (1992)
60. "Preons: Models of Leptons, Quarks and Guage Bosons as Composite Particles"  
 C.S. Kalman and I. DeSouza  
 published by World Scientific Publishing Company (1992)
59. "Hadronic Decay Widths of Higgs Bosons in the Left-right Symmetric Model"  
 M. Frank, H. Hamidian and C.S. Kalman  
*Phys. Rev.* **D45**, 241 (1992)
58. "Anomalous Magnetic Moment of the Muon Arising from the Extensions of the Supersymmetric Standard Model Based on Left-Right Symmetry"  
 R.M. Francis, M. Frank and C.S. Kalman  
*Phys. Rev.* **D43**, 2369 (1991)
57. "Photoproduction of W Bosons as a Test of the Standard Model"  
 Mark A. Samuel, C. Kalman, M. Frank and Guowen Li  
*Can. J. Phys.* **69**, 52(1991)

56. "Strong Decays of Baryons"  
C. S. Kalman, B. Tran  
Nuovo Cimento **104**, 177 (1991) (25 pages in the Journal)
55. "The Anomalous Magnetic Moment of the Muon in a Supersymmetric Left-right symmetric Model"  
C.S. Kalman, M. Frank, and R.M. Francis  
P. 203 Proceedings of the Twelfth Annual Montreal-Rochester-Syracuse-Toronto High Energy Theory Meeting Edited by B. Margolis & P. Valin (1990)
54. "Baryon Spectrum in a Potential Quark Model"  
C.S. Kalman, B. Tran  
Nuovo Cimento **102**, 835 (1989) (45 pages in the Journal)
53. "Renormalization as a Criterion for choosing a Realistic Quantum Field Theory:  $\phi^N$  theories as an example of the selection process"  
R.M.Francis, M.A.Husain and C.S.Kalman  
Physics Essays **2**, 60 (1989)
52. "Dibaryons in a Quantum Chromodynamics Based Consistent Quark Model"  
C. S. Kalman and S. Barbari  
Nuovo Cimento **101**, 193(1989) (19 pages in the Journal)
51. "Anomalous Magnetic Moment of the Muon and Neutral Current Constraints in a Supersymmetric SU(2) xU(1) xU(1) Model inspired by Superstring Theories"  
M. Frank and C. S. Kalman  
Phys. Rev. **D38**, 1469 (1988)
50. "Calculation of the Ground-State Baryons as a test of the hypothesis that the potential is a combination of a Coulomb and a linear potential.  
C. S. Kalman, B. Tran, Richard L. Hall  
Nuovo Cimento **98A**, 125 (1987).
49. "Constraints on Supersymmetric Preon Models"  
C. S. Kalman and N. R. Lewis  
Europhysics Lett. **3**, 1079 (1987)
48. "Unequal Mass Quarkonium Spectra in a Consistent Quark Model"  
C.S. Kalman and I. D'Sousa  
Nuovo Cimento **96A**, 286, (1986)

47. "Ground-State and Low-Lying Positive Parity Excited Baryons Containing u, d, s, c and b Quarks in a Consistent Quark Model with Chromodynamics"  
C.S. Kalman  
Nuovo Cimento **94A**, 219 (1986)
46. "Calculation of The Masses of all The Stable States in the  $\psi$  and U Systems  
N. Mukerji and C.S. Kalman  
Lett. Nuovo Cimento **41**, 513 (1984)
45. "Ground-State and P-wave b-flavored Baryons in a Consistent Quark Model"  
C.S. Kalman and D. Pfeffer  
Phys. Rev. **D28**, 2324 (1983)
44. "A Test of the Identity of Forces in Mesons and Baryons: Calculating Quarkonium Spectra using only Baryon Parameters"  
C.S. Kalman and S. Barbari  
Phys. Rev. **D28**, 2321 (1983)
43. "The  $\psi$  and U Systems in a Consistent Quark Model"  
C.S. Kalman , N. Mukerji  
Phys. Rev. **D27**, 2114 (1983)
42. "Ground State and P-Wave Charmed Baryons in a Consistent Quark Model with Hyperfine Interactions"  
C.S. Kalman, D. Pfeffer  
Phys. Rev. **D27**, 1648 (1983)
41. "Application of the Isgur-Karl Model to the Low-Lying S States of Charmonium"  
C.S. Kalman, N. Mukerji  
Phys. Rev. **D26**, 3264 (1982)
40. "P-Wave Baryons in A Consistent Quark Model with Hyperfine Interactions"  
C.S. Kalman  
Phys. Rev. **D26**, 2326 (1982)
39. "Baryonium Internal Color Transitions in the L=0 state"  
C.S. Kalman. Sushil K. Misra  
Phys. Rev. **D26**, 233 (1982)

38. "A Consistent Quark Model with Hyperfine Interactions For the Ground and Low-Lying Excited Baryon States"  
C.S. Kalman and Richard L. Hall  
Phys. Rev. **D25**, 217 (1982)
37. "Subquark Structure"  
C.S. Kalman  
Can. J. Phys. **59**, 1774 (1981)
36. "SU (1,4) As a Dynamical Group for Hadron Scattering States"  
E. Athanassakos and C.S. Kalman  
Lett. Nuovo Ciment **30**, 199 (1981)
35. "Hyperfine Splitting of the Ground State of Baryonium"  
C.S. Kalman, Richard L. Hall and Sushil K. Misra  
Phys. Rev. **D21**, 1908 (1980)
34. "SU (1,3) as a Dynamical Group for Hadron Scattering States"  
S. Barbari, C.S. Kalman  
Lett. Nuovo Cimento **27**, 513 (1980)
33. "Masses of Charmed Baryons in SU(1,4) Dynamical Group Theory"  
M. O'Neill, C.S. Kalman  
Lett. Nuovo Cimento **27**, 481 (1980)
32. "Calculation of the Mass Spectrum in SU (1,3) Dynamical Group Theory"  
M. O'Neill, C.S. Kalman  
Lett. Nuovo Cimento **27**, 551 (1980)
31. " $\chi$  (2800) as a Four Quark System"  
C.S. Kalman and G. Jakimow  
Lett. Nuovo Cimento **25**, 271 (1979)
30. "Baryonium, the Diquark Model and the Prediction of Mesons with Exotic Quantum Numbers"  
C.S. Kalman  
Lett. Nuovo Cimento **25**, 133 (1979)
29. "Extension of the Logarithmic Potential to Multiquark Systems: Dependence of the Energy on Depth and Range"  
Richard L. Hall and C.S. Kalman  
Phys. Lett. **83B**, 80 (1979)

28. "Origin of Quarkonium: Prediction of New Quark Masses"  
C.S. Kalman  
Lett. Nuovo Cimento **24**, 318 (1979)
27. "Dynamical Groups and the Quarkonium Problem"  
C.S. Kalman  
Appeared in p. 528 Group Theoretical Methods in Physics.  
Volume **94** of Lecture notes in Physics (Springer Verlag,  
New York 1979)
26. "Charmed Baryons in the SU(4) Symmetric 20plet Representation"  
C.S. Kalman, G. Jakimow, E. Yakimiw  
Lett. Nuovo Cimento **21**, 609 (1978)
25. "How Many Y Are There?"  
C.S. Kalman  
Lett. Nuovo Cimento **21**, 145 (1978)
24. "Selection of a Dynamical Group for the Charmed Baryons"  
C.S. Kalman  
Lett. Nuovo Cimento **21**, 291 (1978)
23. "Masses of 27-plet Mesons-Possible Existence of low-mass  
long-lived exotics"  
C.S. Kalman  
Lett. Nuovo Cimento **21**, 201 (1978)
22. "SU (1,4) as a Dynamical Group for the Mesons: Analysis of  
all the Discrete Representations"  
C.S. Kalman  
Lett. Nuovo Cimento, **19**, 474 (1977)
21. "Charmed Baryon Electromagnetic Mass Differences"  
C.S. Kalman, G. Jakimow  
Lett. Nuovo Cimento **19**, 403 (1977)
20. "Effect of u and d Quark Differences on the Masses of Charmed  
Mesons"  
G. Jakimow, C.S. Kalman  
Lett. Nuovo Cimento **18**, 544 (1977)
19. "Mass Formulae for 27-plet Mesons"  
C.S. Kalman  
Lett. Nuovo Cimento **18**, 201 (1977)

18. "SU (1,4) as a Dynamical Group: Analysis of all the Discrete Representations I. Baryons"  
C.S. Kalman  
Can. J. Phys. **55**, 673 (1977)
17. "Masses of Quarks from an SU (1,3) Dynamical Group Model"  
C.S. Kalman  
Particles and Nuclei **9**, 21 (1976)
16. "The Role of the Decuplets in the SU (1,3) Dynamical Group Scheme"  
C.S. Kalman  
Particles and Nuclei **9**, 11 (1976)
15. "Masses of Charmed Baryons"  
G. Jakimow and C.S. Kalman  
Lett. Nuovo Cimento **17**, 516 (1976)
14. "Masses of Charmed Mesons"  
G. Jakimow and C.S. Kalman  
Lett. Nuovo Cimento **17**, 511 (1976)
13. "Are Apparent Violations of the  $\Delta S = \Delta Q$  Rule Due to Charmed Particles or Ordinary SU(3) 27-plet Hadrons"  
C.S. Kalman  
Lett. Nuovo Cimento **17**, 447 (1976)
12. "Mass Formulae for 27-plet Baryons"  
M. Hongoh and C.S. Kalman  
Lett. Nuovo Cimento **17**, 145 (1976)
11. "A One Parameter Mass Formula for Charmed Baryons"  
G. Jakimow and C.S. Kalman  
Lett. Nuovo Cimento **17** 65 (1976)
10. "Isoplet Mass Splitting Determined by the Difference in Action of the u and d Quarks"  
C.S. Kalman  
Lett. Nuovo Cimento **16**, 276 (1976)
9. "Production of  $\psi$  & Charmed Vector Mesons"  
C.S. Kalman  
Lett. Nuovo Cimento **14**, 605 (1975)
8. "Are There Four  $\psi$  Particles?"  
C.S. Kalman  
Lett. Nuovo Cimento **14**, 115 (1975)

7. "SU (1,3) as a Dynamical Group: Analysis of all the Discrete Representations"  
C.S. Kalman  
Can. J. Phys. **51**, 111 (1973)
6. "Classification of the Baryons"  
C.S. Kalman  
Particles and Nuclei **5** 183 (1973)
5. "A Mass Formula for Resonances with Identical Strangeness, Parity, Ordinary and Isotopic Spin"  
C.S. Kalman and J. Patera  
Lett. Nuovo Cimento **5**, 78 (1972)
4. "Total Scattering Cross Sections in Two Body Strong Interactions Calculated by an Algebraic Approach Using the Group SU(1,3)"  
C.S. Kalman  
Can. J. Phys. **50**, 481 (1972)
3. "Total Scattering Cross Sections in Two Body Strong Interactions Calculated by an Algebraic Approach Using the Group SU(4)"  
C.S. Kalman  
Particles and Nuclei **2**, 185 (1971)
2. "Thermalization in Cylindrical Shell"  
S.A. Kushneriuk, C.S. Kalman, A.M. Malecki  
Nuclear Thermalization and Reactor Spectra **1**, 303 (1968)
1. "Effects in Pairing in the  $^{20}\text{Ne}$  Nucleus"  
C.S. Kalman, J.P. Bernier, M. Harvey  
Can. J. Phys. **45**, 1297 (1967)

## II.2 Papers read at Conferences and other Universities related to Physics

55. "Why Quarks cannot be Fundamental Particles"  
"6th International conference; Hyperons, Charm and Beauty Hadrons"  
Chicago June 27-July 3, 2004.
54. "Why Quarks cannot be Fundamental Particles"  
MRST 26. Concordia University  
12-14 May 2004.
53. "The bound state corrections to the semileptonic decays of the heavy baryons"  
"5th International conference; Hyperons, Charm and Beauty Hadrons"  
Vancouver June 25-29 2002.
52. "How does the inside of a Proton Explain the Creation of the Universe?"  
Canadian Association of Physicists Lecture Tour  
University of Western Ontario March 21, 2001
51. "The Kalman--Tran-D'Souza Model and the Semileptonic Decay Rates of Heavy Baryons "  
"4th International conference; Hyperons, Charm and Beauty Hadrons"  
Valencia June 27-30 2000.
50. "Low Energy  $Z_R^0$  Based on an SO(10) SUSY-GUT" Presented at  
MRST-98: "Toward the Theory of Everything "  
McGill University, Montréal, Québec, Canada May 13-15, 1998
49. "Baryon Spectroscopy in the Charm and Beauty Sectors using a Renormalization Group Improved Quark Phenomenological Model"  
"3rd International conference; Hyperons, Charm and Beauty Hadrons"  
Genoa June 30-July 31 1998.
48. "Review of Spectroscopy and strong decays of heavy baryons."  
"2nd International conference; Hyperons, Charm and Beauty Hadrons"  
Montreal Aug 26-30 1996.
47. "Who needs the T quark: Neutrons and Protons, the Atoms of the Strong Interaction",  
invited talk: Physics Department McMaster University. Nov. 10, 1995
46. "Decay of baryons, especially beauty baryons" presented at  
"Production and Decay of Hyperons, Charm and Beauty Hadrons"  
conference sponsored by CERN (Genève), CRN(Strasbourg), DESY(Hamburg)  
Strasbourg France, Sept. 5-8, 1995

- 39,40,41,42,43,44,45. "Experimental Consequences of Supergravity" Invited talk presented at 1) TRIUMF June 1994 2) Winnepeg Institute for Theoretical Physics June 1993 3) Brown University Feb 1993 4) Université de Montréal January 1993 5) Atomic Energy of Canada Ltd., July 1992; 6) University of Rochester, March 1992 7) Syracuse University, March 1992.
38. "Experimental consequences of left-right supersymmetry"-Invited talk presented at MRST-94: "what Next? Exploring the Future of High -Energy Physics", McGill University, Montréal, Québec, Canada May 11-13, 1994
- 37 "Left-Right Supersymmetry"-Invited talk presented at SUSY 93 (International workshop on Supersymmetry and Unification of fundamental interactions), Northeastern university, Boston March 1993.
- 34,35,36. "Neutrons and Protons, the Atoms of the Strong Interaction", "Strong Decays of Baryons", "Experimental Consequences of Supersymmetry", Three invited talks presented at Jadavpur University, Calcutta, India, August 1990.
33. "The Anomalous Magnetic Moment of the Muon in a Supersymmetric Left-right Model", Proceedings of the twelfth Annual Montreal-Rochester-Syracuse-Toronto Meeting, McGill University May 14-15 1990, Edited by B. Margolis & P. Valin P.203.
32. "Neutrons and Protons, the Atoms of the Strong Interaction", invited talk: Atlantic Universities Undergraduate Physics Conference, Mount Allison University, February 1990.
- 31,30 "Experimental Consequences of Supergravity", invited talk presented at (1) York University, November 1989, (2) McGill University, November 1989.
29. "Strong Decays of Baryons", American Physics Society, Spring Meeting, Baltimore, May 1989. (Bull APS 34, 1248(1989))
28. "Strong Decays of Baryons", invited talk, Indiana University, February 1989.
27. "Baryon Spectrum in a Potential Quark Model", Canadian Association of Physicists Annual Meeting, American Physics Society June meeting, Université de Montréal June 1988. (Bull APS 33, 1212(1988)).

26. "(g-2) and neutral current constraints in a superstring inspired model", Canadian Association of Physicists annual meeting, American Physics Society June meeting, Université de Montréal June 1988 (Bull APS 33, 1212 (1988)).
25. "A Supersymmetric Model as a Low Energy Limit of Superstring Theories", invited talk presented at Université de Montréal February 1987.
24. "The Colourful World of Quarks", invited talk presented at MIND High School, December 1985.
23. "The Experimental Implications of Subquark Structure at the SSC", invited talk presented at Université de Montréal November 1985.
22. "The Colourful World of Quarks", invited talk presented at Marianapolis College, May 1984.
21. "Consistent Quark Model for Mesons, Baryons and other Hadrons" Invited talk presented at Université de Québec, à Trois Rivieres, April 1983.
20. "Subquark Physics"  
European Physical Society International Conference on High Energy Physics, Lisbon 1981.
19. "Computation of the Baryonium Spectrum", European Physical Society International Conference on High Energy Physics
18. "Origin of Quarkonium: Prediction of New Quark Masses", Institute of Particle Physics Symposium, McGill University April 1979.
17. "Two-Body Meson Baryon Cross Sections", American Physics Society, Washington, 1979.(Bull. A.P.S. 24, 673 (1979))
16. "Dynamical Groups and the Quarkonium Problem", Invited talk: Integrative Conference on Group Theory and Mathematical Physics, VIIth International Colloquium, Austin, Texas, Sept. 1978.
15. "Possible Existence of Low-Mass Long-Lived Exotics", American Physical Society, Chicago 1977 (Bull.A.P.S. 22,23 (1977))
- 14,13,12 "Beyond Charm What Next?" Invited Talk presented at:
  - (1) Simon Fraser University March 1978
  - (2) York University Nov. 1977

11. "Long-Lived Low-Mass Exotics", Invited Talk, High Energy Physics Seminar, Indiana University, Dec. 1976.
10. "Gelfand Patterns and Charmed Mesons", Invited Talk, Theoretical Physics Seminar, Indiana University, October 1976.
9. "Mass Formulas. Cross Sections and Non-Symmetry Groups", Invited talk, Theoretical Physics Seminar, Indiana University, Jan. 1975.
8. "Are There Four  $\psi$  Particles?" Canadian Association of Physicists and Institute of Particle Physics, Carleton, April 1975.
7. "Extension of the SU(1,3) Classification Scheme to Quarks and Decuplets", Canadian Association of Physicists and Institute of Particle Physics, University of Toronto, April 1974.
6. "Dynamical Group Theory Applied to Atomic Systems" Concordia University  
Nov 18 1974
5. "New Classification of the Baryons", Canadian Association of Physicists and Institute of Particle Physics, McGill, March 1973.
4. "Beyond SU(3) - New Classification of the Baryons", American Physics Society, New York, January 1973 (Bull, A.P.S. 18, 29 (1973)).
3. "Total Scattering Cross Sections in the Two Body Strong Interactions Calculated by an Algebraic Approach Using the Group SU(4)", Division of Particles and Fields American Physics Society, Rochester, N.Y., Aug. 1971.
2. "Dynamical Groups in Elementary Particle Physics", Invited Talk, Theoretical Physics Seminar, McGill University, Nov. 1969.
1. "On the Connection Between Symmetry Principles and Conservation Laws; the Unitary Unimodular Group in Three Dimensions", Invited Talk, Math-Physics Seminar, University of Rochester, Nov. 1967.

### III. Graduate Theses and Reports Supervised

17. "Baryon Spectroscopy in the Charm and Beauty Sector"  
I. D'Souza 1998 (PhD Thesis)
16. "Symbolic Computation of Electron-Proton to Slepton Quark Scattering Cross Sections Based on a Left-Right Supersymmetric Extension of the Standard Model"  
M. Adcock 1997 (M.Sc. Thesis)
15. "Production of Charginos and Neutralinos for the reaction  
 $e^+e^- \rightarrow Z' \rightarrow \tilde{\chi}_i^+ \tilde{\chi}_j^-, \tilde{\chi}_i^0 \tilde{\chi}_j^0$  in  $SU(2)_L \times SU(2)_R \times U(1)_{B-L}$ "  
S. W. Eby-Frederick 1993 (M.Sc. Thesis)
14. "Chargino-neutralino production in pp-collision for the left-right supersymmetric model"  
H. Saif December 1992 (Ph.D. Thesis)
13. "Gauge Fields and Feynman Rules in a Fully Left-Right Supersymmetric Extension of the Standard Model"  
R.M. Francis September 1989 (M.Sc. Thesis)
12. "Spectroscopy and Strong Decays of Baryons"  
B. Tran March 1989 (Ph.D. Thesis)
11. "Meson and Dibaryon Masses in A QCD Based Consistent Quark Model"  
S. Barbari April 1986 (Ph. D. Thesis)
10. "The  $\bar{1}^2$  Theory: Feynman Rules, Renormalizability, Regularization and Renormalization"  
M. A. Husain April 1986 (M.Sc. Thesis)
9. "A Review of Substructure Models of Quarks and Leptons"  
F. R. Patel April 1986 (M.Sc. Report).
8. "Ground State Baryons in a Consistent Quark Model with Coulomb plus Linear Potential"  
B. Tran April 1985 (M.Sc. Thesis)
7. "Spectra of the j and U Systems in a Consistent Quark Model with Fine and Hyperfine Corrections".  
N. Mukerji September 1984 (Ph.D. Thesis)

6. "Unequal Mass Quarkonium Spectra in a Consistent Quark Model with Fine and Hyperfine Interaction".  
I. D'Souza April 1984 (M.Sc. Thesis)
5. "Charmed Baryons in a Consistent Quark Model with Hyperfine Interactions".  
D. Pfeffer April 1983 (M.Sc. Thesis)
4. "Application of a Variational Technique for Two-Quark Systems in Diverse Central Potentials".  
W. Coulter April 1982 (M.Sc. Report)
3. "Calculation of Exclusive Cross Sections of Two Body Strong Interaction Using The Dynamical Group  $SU(1,4)$ ".  
E. Athanassakos June 1980 (M.Sc. Thesis)
2. "Calculation of Baryon Masses Using the Dynamical Group  $SU(n+1)$ ".  
M. O'Neill April 1980 (M.Sc. Thesis)
1. " $SU(3, 1)$  As a Dynamical Group for Meson-Baryon Strong Interactions".  
S.A.S. Barbari March 1979 (M.Sc. Thesis)

## **IV Community Activities**

### **a Talks Given**

1. "From Israel to Egypt: A spritual Journey"

Power Breakfast. Shaar Hashomayim Synagogue February 2008.

see Bulletin volume 80#5 p.11, 2008.

A more comprehensive written piece is found in Congregation Agudas Israel Bulletin November/December 2007, P. 7 & 15.

2. Chair of a panel discussion on "The Interactions of Religion and culture in Modern Times" at the Joseph & Ida Berman Auditorium, Jewish Public Library Nov 13,1995

3. "Would a Perfect G-d Create a Perfect Universe  
Manoir Montefiore, July 6,1994

### **b Educational**

1. Chair Hampstead School Committee

2. Chair Mind School Committee

3. Chair, Wagar School Committee

4. Vice Chair, FACE School Committee

5. Chair Region IV Parents Committee PSBGM

6. Member Central Parents Committee PSBGM

7. Commissioner Elementary Schools PSBGM

8. Commissioner High Schools PSBGM

PSBGM: Protestant School Board of Greater Montreal

9. Council of Canadian of Association of Physicists (2002-2004)

## **V. Committees**

### **A NON DEPARTMENTAL**

1. Chair Loyola Faculty of Arts and Science Curriculum Coordinating Committee
2. Chair Loyola Science Curriculum Committee
3. Treasurer Loyola Faculty Association
4. Faculty Council, Concordia Faculty of Arts and Science
5. Steering Committee, Faculty Council, Concordia Faculty of Arts and Science
6. Senate and Loyola Faculty of Arts and Science Honours Committee
7. CUFA Grievance Committee
8. Loyola Faculty of Arts and Science Dean's Task Force on Future of Science at Concordia
9. Loyola Senate Committee on Computer Science and its Special Subcommittee
10. Loyola Science Committee on Future of Loyola
11. Dean's Advisory Committee, Concordia Faculty of Arts and Science
12. Concordia Faculty of Arts and Science Committee on General Education
